SUPREME LA ROCK

TECHNICAL RIDER

CONTACT

djsupreme@comcast.net

FORMAT

Vinyl and digital

01 DJ BOOTH

- Stable, level DJ booth or table with adequate working space
- Protected from audience traffic, drinks, and weather
- Secure area for personal equipment
- Outdoor events: overhead cover and a weather plan agreed in advance

02 EQUIPMENT — VINYL

- Two Technics SL-1200/1210 turntables or approved equivalent, serviced, with working pitch control
- Turntables isolated from bass vibration on a stable, feedback-free surface
- Professional DJ mixer, two channels minimum
- Booth light sufficient for reading record labels
- Artist provides cartridges, needles, and headphones
- Equivalent substitutions must be approved before the event

03 EQUIPMENT — DIGITAL

- Two linked professional media players, Pioneer CDJ-3000 or approved equivalent, USB-capable, current firmware
- Professional DJ mixer, Pioneer DJM-900 class or approved equivalent
- Table space and power for a laptop when needed
- Artist provides USB drives and headphones
- Equivalent substitutions must be approved before the event

04 AUDIO

- Professional sound system appropriate for the room and audience
- Booth monitor with independent level control
- Stereo connection from the DJ mixer to the house system
- Venue technical contact available for setup and line check

05 POWER

- Safe, grounded power at the booth

06 LOAD-IN

- Parking or load-in instructions provided in advance of the event

07 HOSPITALITY

- Water and clean towels at the booth
- Two drinks or drink tickets where the venue serves alcohol
- Vendor meal for extended events, when agreed in advance

Schedule and event-specific requirements are confirmed in the booking conversation.
